AliRacks are:

Made from antioxidant aluminum alloy with polyethylene shelves providing a high standard of hygiene and a long lasting product

Resistant to moisture, won't rust or corrode

Easy to clean, shelves easily pop out and can be washed in a commercial dishwasher

Suitable for wet, dry, cold or humid conditions, walk-in coolrooms, dry storage, sanitation and service supplies

Heavy load bearing, suitable for heavy storage needs, with up to 250kg load capacity on each shelf (150kg for longer shelves and 85kg for units on castors)

Load capacity:
775-1225, 250kg per tier
1375-1525, 200kg per tier
1675-1825, 180kg per tier
Mobile units, 85kg per tier

Available from:

Finished Lengths (all measurements are in mm)

Complete Unit	Plus Add-on	Finished Length
775	740	1515
